

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

OPEN REGATTA FOR ALL CLASSES

AUGUST 7th.

KNOCKABOUT CLASSES.

Races for the Knockabout Class will be sailed in connection with all club regattas.

HANDICAP RACES FOR CRUISING YACHTS.

CLASS A, 21 FEET, AND NOT OVER 35 FEET WATER-LINE.

CLASS B, UNDER 21 FEET WATER-LINE.

The Regatta Committee, in order to encourage racing by yacht owners who do not usually start their yachts in the races, will offer prizes for competition by yachts sailing in cruising trim.

In these races yachts will be restricted to lower working sails and gaff-topsails, shall not haul out for cleaning within a week before the race, and shall not strip for the race; *i. e.* shall sail with usual cruising outfit aboard.

The Regatta Committee will reserve the right to reject any entry made for this class, and will adjust the handicaps.

KNOCKABOUT BOATS.

DEFINITION AND LIMITATION OF A KNOCKABOUT ADOPTED BY THE KNOCKABOUT ASSOCIATION.

A Knockabout boat is a seaworthy keel boat (not to include fin keel) decked or half decked, of fair accommodations, rigged simply without bowsprit, and with only mainsail and one head sail. The load water-line length shall not exceed 21 feet. The beam at the load water-line shall be at least seven and not more than eight feet. The free-board shall be not less than 20 inches. The forward side of mast at the deck shall be not less than five feet from the forward end of the load water-line. The planking, including deck, shall be not less than three-quarters of an inch thick, finished. The frames shall be not less than one inch square, and spaced not more than twelve inches on centers. The deadwood shall be filled in. The rudder shall be hung on stern post. The outside ballast shall be not less than 3,500 pounds. The limits of free-board, beam, planking, frames, deadwood, rudder, place of mast and amount of outside ballast shall not exclude any existing knockabout boats which otherwise come within the restrictions.

THE SAIL AREA RULE.

The actual sail area shall be not over 500 square feet, not over 400 square feet of which shall be in the mainsail. The Inspector shall be provided with a correct sail plan of any boat to be measured, and previous to measurement the owner shall cause distinguishing marks, satisfactory to the Inspector, to be placed on the spars as follows :

On the mast at the tack and at the throat of the mainsail; on the boom at the clew of the mainsail; on the gaff at the peak of the mainsail. No part of the mainsail shall be allowed to extend beyond these marks. The marks shall be black bands painted around the spars in a manner satisfactory to the Inspector. The lower and inner edges of the bands shall be the limits of the sail. The area of the jib shall be considered to be the area of the forward triangle, viz: the product of one-half the distance from the attachment of the tack to the stem to the forward side of the mast at the tack mark of the mainsail, multiplied by the distance from the upper edge of the said tack mark to the bottom of the jib halliard block.

Only mainsail and working jib shall be allowed, but a storm jib may be substituted for the working jib.

Knockabout boats already launched, and whose sail plans comply with the sail area rule, adopted in 1894, shall not be obliged to change their sail plans to conform to the present rule.

CHAPTER IX.

AMENDMENT.

These By-laws may be amended at any meeting provided due notice has been given.

RACING RULES.

RULE I.

The Regatta Committee shall appoint the dates for all regattas, and make all necessary arrangements for the same. They may make any regulations for the government of regattas which they deem useful, in accordance with the Racing Rules of the Club.

The Board of Judges shall have charge of the race, and of all yachts sailing therein; and they shall decide all questions necessary to the immediate management of the race. Their decisions shall be based upon the Racing Rules, and the supplementary regulations laid down for their guidance by the Regatta Committee, so far as these will apply; but as no rule can be devised capable of meeting every incident and accident of sailing, the Regatta Committee and Judges shall keep in view the ordinary customs of the sea, and discourage all attempts to win a race by other means than fair sailing and superior speed and skill.

If any yacht be disqualified, the prize shall be awarded to the next in order. The Judges shall decide on the prize-winners as soon as possible after the conclusion of the race, and they shall notify the Regatta Committee of their decision. They shall post their decision in the Club-house as soon as made.

RULE 2.

APPLICATION.

Yachts entered in a race shall be amenable to these Rules from the time the preparatory signal is given.

These rules shall apply to all yachts sailing in a race, whether in the same or in different classes.

All yachts belonging to the Club not sailing in a race, shall keep out of the way of yachts in the race, and to leeward of them.

RULE 3.

POSTPONEMENT.

The Judges shall have power to postpone any race, should unfavorable weather render such a course desirable.

RULE 4.

CLASSIFICATION.

Yachts shall be divided into classes according to water-line length as follows :

FIRST CLASS. Yachts 25 feet and less than 30 feet.

SECOND CLASS. Yachts 21 feet and less than 25 feet.

THIRD CLASS. Yachts 16 feet and less than 21 feet, Jib and Mainsail rig.

FOURTH CLASS. Yachts 16 feet and less than 21 feet, other than Jib and Mainsail rig.

KNOCKABOUT CLASS. Knockabouts according to the definition and limitations adopted by the Club, and to be raced under the present rules of the Knockabout Association.

If a yacht has no competitor in her own class, she may enter at her usual rating the class of the next lower number in which there may be a starting yacht.

RULE 5.

MEASUREMENT.

The water-line length shall be taken from point of immersion forward, to point of immersion aft. In cases where any portion of the rudder or rudder-post projects above the water, such portion shall not be included in the water-line length.

The crew need not be aboard, but if aboard must be stationed amidships.

The sail area is to be ascertained by taking a perpendicular along the after side of the mainmast, from the under side of the gafftopsail block or sheave on topmast, to the upper side of boom, when resting on the saddle, or on the lowest part of goose neck; the distance of which point from the main deck or house deck is to be recorded by the Measurer, together with the other points used in measurement. In all yachts, the forward point of measurement of the base-line shall be midway between the intersection of the bowsprit and jib topsail stay, and the center of the tack cringle of the jib or flying jib, when set. In all cases where the extreme length of the spinaker boom exceeds the distance from the forward side of the forward mast to the forward point of measurement, such excess shall be added to the base-line. The after point of measurement shall be the end of the main boom in schooners, cutters and sloops and of the mizzen boom in yawls. The main topmast shall be measured from the hounds of the lower mast to the lower side of the topsail halyard block or sheave, and eighty per cent. of this length shall be taken from the extreme length of the main gaff measured from the inside of the jaws, to the after end, the remainder of the gaff being added to the base-line, as measured above. The area from these figures is obtained by multiplying the corrected base by the perpendicular, and dividing by two. To the square root

of the area, as ascertained, add the water-line length, and divide the product by two. The result is the measurement for time allowance.

In measuring boats without topmasts, the perpendicular is to be measured to the highest point of attachment of the uppermost halyard block on the mast, and in such boats the point of attachment of the throat halyard block shall be the point of measurement, corresponding to the hounds. In measuring boats without head sails, the after side of the forward mast is to be taken as the forward point of the base-line.

In cases of different rigs sailing together, yawls shall be rated for time allowance at seven-eighths of their racing measurement.

No change of spars shall be made on the day of a race, except in case of accident, in which case notice of the change shall be given to the Regatta Committee before the preparatory signal, and the new spars shall be of the same length as those for which they are substituted.

The Measurer, at the time of making his measurement, shall make a distinctive mark at each end of the water-line.

No yacht shall enter a regatta of this Club until she has been measured by the Club Measurer, and a certificate of her sailing length has been filed with the Regatta Committee or Judges.

The Regatta Committee or Judges reserve the right to have any yacht remeasured at their pleasure, but such remeasurement shall be made at the expense of the Club. All measurements shall be made in the presence of the owner of the yacht or his representative.

A suitable tape shall be provided for the use of the Measurer, and this tape shall be used in all measurements of the Club yachts.

The fee for measuring boats of the first and second classes shall be two dollars, and for third and fourth classes, one dollar.

RULE 6.

ALLOWANCES.

Allowances shall be figured according to the tables prepared by N. G. Herreshoff.

RULE 7.

ENTRIES.

Entries shall be made in the manner prescribed by the Regatta Committee.

RULE 8.

RE-SAIL.

The Judges may order a re-sail of any class at their discretion.

RULE 9.

INSTRUCTIONS.

Each yacht entered for a race shall be supplied with written or printed instructions as to the conditions of the race, the course to be sailed, marks, etc. Nothing shall be considered a mark in the course unless especially named in these instructions. It shall also be designated on which side marks and buoys shall be passed or rounded.

RULE 10.

SAILS.

For yachts in the first and second classes there shall be no restriction in regard to sails, except that when a spinnaker is carried the pole must be set on the mast.

Yachts in the third and fourth classes shall be restricted to working sails as follows:

For sloops and cutters—jib, forestaysail and mainsail.

For schooners—mainsail, foresail, forestaysail and jib.

For cats—mainsail only.

For yawls--the same sails as cutters with mizzen in addition.

For knockabouts—mainsail and jib.

RULE 11.

HELMSMAN.

In all races the wheel or tiller of each yacht shall be held only by an amateur, who must be a member of this Club, or a member of the Club from which the yacht is entered.

RULE 12.

CREW.

Yachts in the first class may carry six men; yachts in the second, third and fourth classes, five men; knockabouts may carry three men. No one shall join or leave a yacht after the start, except in case of an accident, or an injury to some person on board. None but amateurs shall be allowed on board any yacht when contending for prizes, except that yachts in the first class may carry two paid men, and in other classes one paid man.

An amateur, for the purpose of this rule, shall be defined to be one who has never received money, or equivalent compensation, for sailing, or assisting to sail, a boat since this Club was organized.

RULE 13.

FITTINGS AND BALLAST.

No water shall be started from or taken into the tanks after the signal to start has been made. No more than the usual anchors and chains shall be carried during a race, which must not be used

as shifting ballast, or for altering the trim of the yacht. No ballast shall be shipped or unshipped on the day of the race in either the first or second classes. Shifting ballast shall not be allowed in any race governed by the rules of this Club, under penalty of the boat, and the owner of the boat, and any other boat belonging to him, being debarred from further entry or participation in a race given by this Club.

RULE 14.

LIFE BUOYS.

Yachts of the first and second classes must carry two, and yachts of the smaller classes one serviceable life buoy within easy reach of the helmsman.

RULE 15.

START AND FINISH.

All starts shall be flying. If any part of a yacht be on or across the line when the signal for her class to start is given, she must return and recross, keeping clear of all competing yachts.

RULE 16.

ANCHORING.

Yachts may anchor during a race, but must weigh again on starting.

RULE 17.

SOUNDING.

Nothing but a hand lead and line shall be used for sounding.

RULE 18.

RIGHT OF WAY.

SECTION I. When one yacht is approaching another yacht so as to involve risk of fouling, one of them shall keep clear of the other as follows :

SEC. 2. A yacht free shall keep clear of one close-hauled.

SEC. 3. When both yachts are close-hauled, or both free, or both have the wind aft and have the wind on opposite sides, the yacht with the wind on the port side shall keep clear.

SEC. 4. When both yachts are close-hauled, or free, or both have the wind aft and have the wind on the same side, the yacht to windward shall keep clear.

SEC. 5. A yacht with the wind aft is deemed to have the wind on the side opposite to that on which she is carrying her main boom. A yacht with the wind aft shall keep clear of a yacht on any other point of sailing.

SEC. 6. An overtaking yacht shall in every case, as long as an overlap exists, keep clear of the yacht which is being overtaken.

SEC. 7. An overlap is established when an overtaking yacht has no longer a free choice on which side she will pass, and continues to exist as long as the leeward yacht by luffing or the weather yacht by bearing away is in danger of fouling.

SEC. 8. For the purpose of this Rule the overtaking yacht shall be defined as the one which is sailing faster through the water.

SEC. 9. When of two yachts one is obliged to keep clear, the other shall not so alter her course as to involve risk of fouling.

SEC. 10. A yacht may luff as she pleases in order to prevent another from passing her to windward, providing she begins to luff before an overlap has been established.

SEC. 11. A yacht shall not bear away out of her course so as to hinder another in passing to leeward.

SEC. 12. A yacht shall not become entitled to her rights on a new course until she has filled away.

SEC. 13. If an overlap exists between two yachts when both of them without tacking are about to pass a mark on the required side, then the outside yacht must give the inside yacht room to pass clear of the mark. A yacht shall not, however, be justified in attempting to establish an overlap and thus force a passage between another yacht and the mark after the latter has altered her helm for the purpose of rounding.

SEC. 14. A mark is any vessel, boat, buoy or other object used to indicate the course and does not in the preceding Section involve any question of sea-room.

SEC. 15. When a yacht is in danger of running aground, or of touching a pier, rock or other obstruction, and cannot go clear by altering her course, without fouling another yacht, then the latter shall on being hailed by the former, at once give room; and in case one yacht is forced to tack or bear away, in order to give room, the other shall also tack, or bear away, as the case may be, at as near the same time as is possible without danger of fouling. The starting line is not an obstruction.

RULE 19.

FOULING.

SECTION 1. A yacht touching a mark or causing a mark to shift its position, unless wrongfully compelled to do so by another yacht, shall be disqualified.

SEC. 2. If a yacht, in consequence of a violation of any of these Rules, shall foul another yacht, or compel another yacht to foul any yacht, mark or obstruction, or to run aground, she shall be disqualified and shall pay all damages; and any yacht which shall wrongfully cause another to alter her course in order to avoid fouling, or shall,

without due cause, compel another yacht to give room under Section 15 of Rule 18, or shall herself fail to tack or bear away, as required by that Section, or shall in any other way infringe or fail to comply with any of these Rules, shall be disqualified.

RULE 20.

MEANS OF PROPULSION.

No means of propulsion, except sails shall be allowed.

RULE 21.

ACCIDENTS.

In case of danger to life, all yachts shall use their utmost endeavors to render assistance; and if the Committee believe that by so doing any yacht was prevented from winning a prize, they may order the race re-sailed between that yacht and the prize-winners.

RULE 22.

REMOVAL OF MARKS.

Should any flag vessel or mark be removed, through any circumstances, from its proper position, the race may be re-sailed or not, at the direction of the Judges.

RULE 23.

PROTESTS.

All protests must be made to the Judges in writing within one hour after the close of the regatta.

The Regatta Committee may also, without a protest, disqualify any yacht should it come to their knowledge that she has committed a breach of the Rules.

All questions arising in any race, not covered by these Rules, shall be decided by the Committee.

RULE 24.

PENALTIES.

Should a flagrant infringement of the Rules be proved against any yacht she may be disqualified, for such time as the Regatta Committee may see fit, from sailing in Club races.

RULE 25.

AMENDMENTS.

The Racing Rules may be amended by a two-thirds' vote at any meeting of the Club, provided, however, that the notice of such meeting shall have contained the proposed amendment in full. When such amendment is properly before any meeting for consideration it may, before final action thereon, be changed or amended by a majority vote, provided the changes offered be germane to the subject covered by the amendment first proposed.

RULES OF THE HOUSE COMMITTEE.

RULE 6.

Restaurant charges of all kinds must be paid to the *head waiter* by members incurring the same before leaving the dining-room, but members living at the Club-house may pay by the week if they so desire. Smoking will be allowed in the dining-room after 7, P.M, except on Mondays.

RULE 7.
